General Assessment Questions

18. What grade do you expect to receive in this course?

F D C B A
 0 0 3 4 7

note: "College" is the mean of all section means for each response item. Only survey results from sections taught by full-time faculty are used in the calculations. Based on analysis of past results, if an 'item section mean' or 'overall section mean' is two or more standard deviations below the 'college mean', then the section mean falls in approximately the lowest five percent of all section means. A section mean that falls one or more standard deviations below the college mean is in approximately the lowest fifteen percent of all section means. "Overall Mean" statistics exclude Q18.
